EDUCATION

[August 2026 - PRESENT]

UNIVERSITY OF CINCINNATI

- Freshman @College Of Engineering and Applied Sciences
- Pursuing a B.S. in Biomedical Engineering

[May 2025 - August 2025]

UNIVERSITY OF CINCINNATI

- Ohio College Credit Plus Program
- College Engineering and Design Thinking I & II, Intro to Psychology, English Composition 1001, Financial Accounting

[Aug 2020 - May 2026]

WALNUT HILLS HIGH SCHOOL

- Activities: FTC Robotics, Programming Club, Muslim Student Association

AWARDS AND CERTIFICATES

[April, 2026]

BEST OF THE BEST + 1ST PLACE, SOFTWARE & WEB DEVELOPMENT – UNIVERSITY OF CINCINNATI IT EXPO
• Awarded for EagleVision, a smartphone-based microscope streaming platform

[Apr, 2025]

COMPUTING AWARD - ROCHESTER INSTITUTE OF TECHNOLOGY (\$96,000)

- To a Junior who demonstrates evidence of an interest and ability in computing

[May, 2025]

AP CAPSTONE DIPLOMA

- Presented by The College Board to a student who demonstrated exceptional research, analysis, and academic skills by completing AP Seminar, AP Research, and four additional AP exams.

SKILLS

- Computer Vision & Deep Learning
- Team Leadership & Collaboration
- Project Management
- Spreadsheets & Data Analysis
- Public relations & Customer Service
- C++ (Arduino) and Java Programming
- Robotics/Mechatronics
- Information Technology
- CAD & 3D Design

LANGUAGES

- English: Fluent
- Kurdish: Fluent
- Arabic: Licensed in reading and teaching Arabic Pronunciation

ABOUT

I've been curious about how living things work at the smallest scale since I first learned about cells in 9th grade, which is what pulled me toward Biomedical Engineering over a straight CS or robotics path. I'm an incoming freshman at the University of Cincinnati studying BME. That same curiosity is what led me to build EagleVision, a platform that streams classroom microscope feeds from a smartphone so schools without lab equipment can still see live microbiology. I'm proficient in HTML, CSS, and JavaScript for web development, Java for robotics, and Arduino for IoT and embedded projects. Long-term, I want to work in bionics or biomechatronics, building instruments and prosthetics that actually help people.

EXPERIENCE

FTC Robotics - Team 6133 The "NUTS!"

[May 2024 - May 2026]

Programming Lead

- Redesigned code and organized repositories; created help guides for teammates to learn GitHub and Android Studio
- Developed computer vision for the robot using neural networks, color thresholding, and OpenCV; work was adopted by other robotics teams internationally
- Programmed autonomous and driver-controlled robot behavior in Java via Android Studio
- Gained hands-on experience with CAD for designing robot components

Arduino in Robotics

[Aug 2024 - May 2025]

Assistant Teacher

- Assisted in teaching the first online Arduino curriculum in Kurdistan
- Designed interactive lessons and mentored students in electronics and programming
- Helped students develop practical skills through hands-on projects
- Offered foundational learning opportunities via online meetings

Xavier University via INTERalliance of Greater Cincinnati

[Jun 2025 - Aug 2025]

IT Intern

- Faculty & Staff system replacements (~25% of systems), Lab & Shared-use Systems (~50% of systems)
- Cleaned and managed Public Spaces, and prepared over 50 new hire systems
- Met with employees to assist with day-to-day IT problems

Eaglevision Microscopy (eaglevision.dev)

[Feb 2025 - PRESENT]

Founder

- Solo-developed a smartphone-based microscope streaming platform making classroom lab equipment affordable for under-resourced schools
- Filed a provisional patent (USPTO App. No. 64/028,055) and piloted the platform at Madeira Elementary School
- Won Best of the Best and 1st Place, Software & Web Development at the 2026 UC IT Expo, and \$10,000 as a Samsung Solve for Tomorrow semifinalist
- Grew out of the programming club led as president (166% membership growth, 15 to 40+ members); now developing with a collaborator and open to additional contributors

Islamic Association of Cincinnati - Iftar Volunteer

[Ramadan 2023 - PRESENT]

Volunteer - Head of Communication

- Volunteered during Ramadan in 2023 through 2026, serving evening meals to the community
- Assisted in food preparation and ensured smooth food service operations
- Managed crowd control and maintained order using effective communication skills
- Served as Head of Communication for Ramadan 2025
- Served as door guard and announcer for Ramadan 2026
